HON. DAVID SECOR, WINNEBAGO CITY, MINN.
JOHN BENO, COUNCIL BLUFFS, IOWA.
JOHN A. PENTLAND, CINCINNATI, OHIO.

NORTHERN OFFICE

134 MONROE ST., CHICAGO.

April 23, 1902.

Dear Sir:

If we can gain your attention for a few minutes we can interest you, provided dividends are attractive to you.

March was a banner month for us; our seventh gusher on Spindle Top was completed on the 27th, and on the 31st we finished our eighth and brought it in April 1st, one of the greatest of the great oil wells in the Beaumont field. In addition to this we completed our third huge steel oil tank near Spindle Top; connected up our pipe line with five wells and ten settling tanks; received the material for four more 55,000-barrel steel storage tanks and began their erection at Port Arthur; doubled our force of workmen on engine house, pump station, pipe line, oil wharf lines, etc., in fact "made things hum."

By thorough investigation we have become convinced that a Refinery at Port Arthur will pay immensely. We have land, oil wells, pipe lines, and everything else needed for a complete oil enterprise and have the site purchased for a Refinery. We have men of broad experience and good ability to plan and manage, and experts to superintend construction.

We have just contracted for additional tankage for 650,000 barrels of oil, making our total capacity over one million barrels, above ground, an ample supply to begin operations upon.

We enclose herewith our prospectus, and hope you will read every page of it, but if you have not the time to read it all through, we invite your particular attention to the various illustrations and paragraphs explaining them. To get the money for a Refinery we shall for a short time only, offer stock in the Sun Oil Refining Company at 25 cents per share one-quarter of its par value. To make assurance doubly sure we shall not ask for cash in advance, but take your order on a novel, value received before payment plan, i. e., not a cent to be paid until we give you value received in the shape of a complete oil gusher of great capacity, in addition to the valuable joint ownership every share carries with it, in the land, oil, loading plants, pipe lines, etc., as fully described in our prospectus. This offer will cease when this well is in, and stock will no longer be offered at this price.

We wish to impress upon you that this opportunity is an unusual one. That this is the last of the ten Brice companies in which you can buy shares at 25 cents. That stock will surely go to par. That this is not a speculation, but is something solid. That you assume no personal liability and take no risk, as there are no bonds, no liens of any kind. That we are prepared to produce oil and transport it to market at a minimum cost and offer a proposition in which you can invest your money with perfect safety, and at the same time get the most out of it.

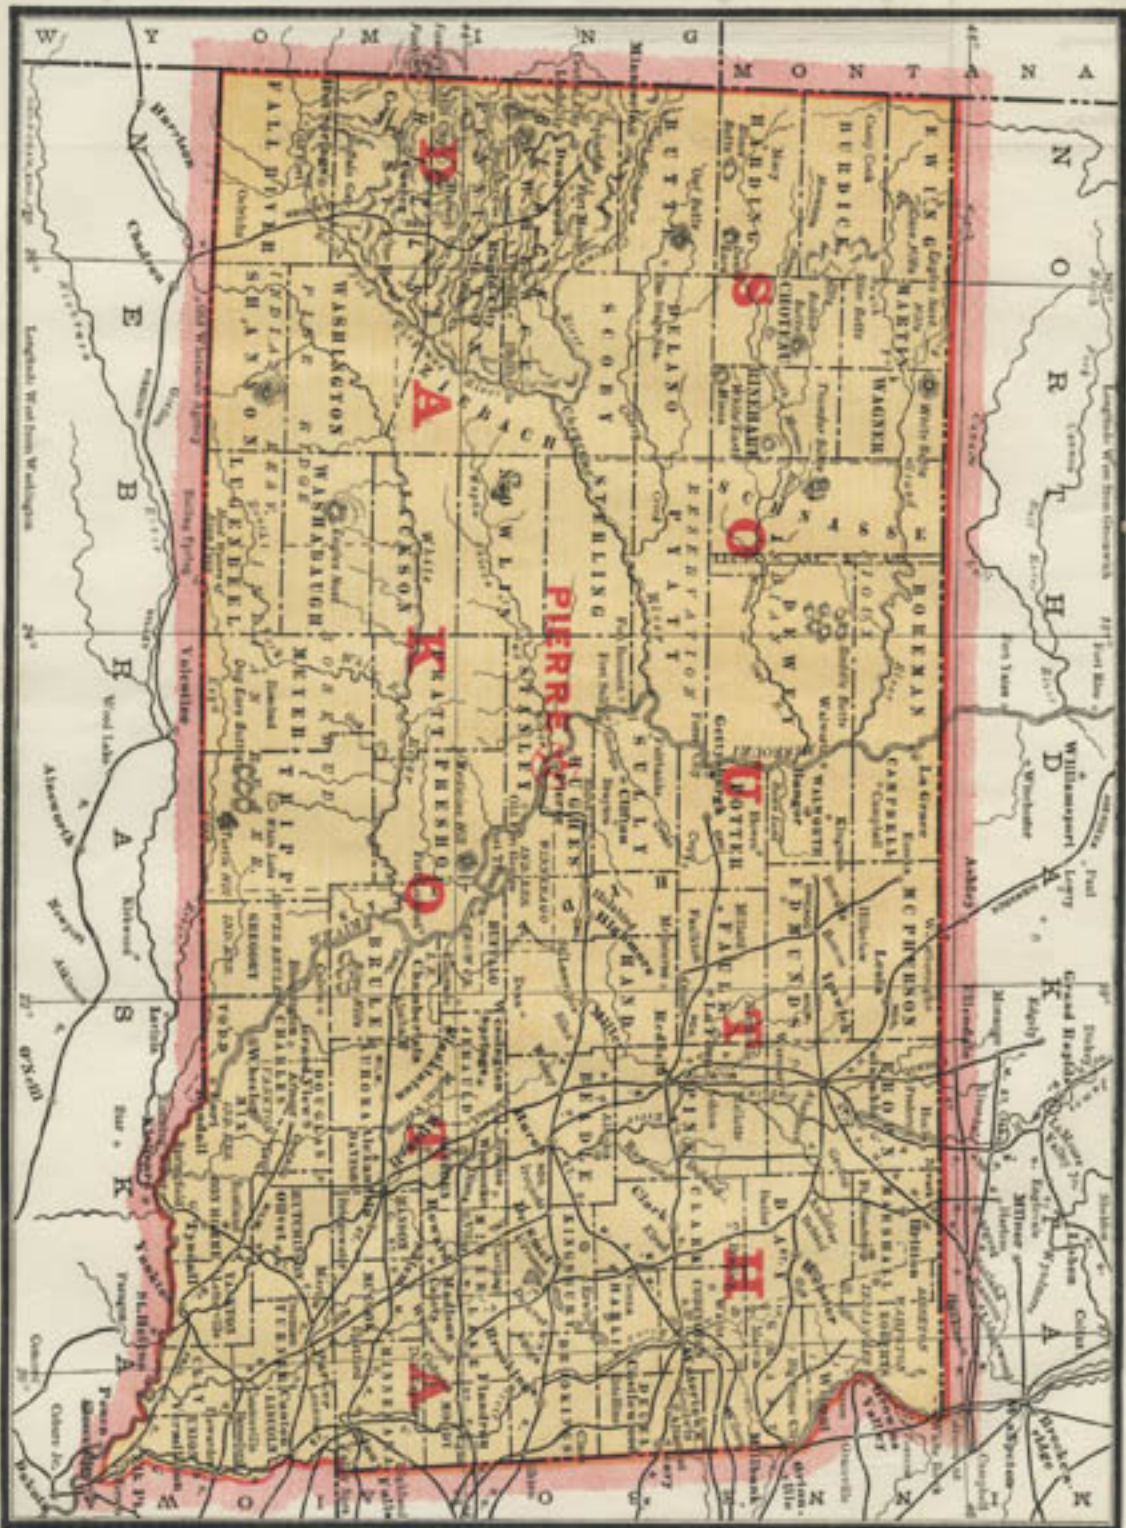

If you decide to avail yourself of our most liberal offer, you will find blanks enclosed on which to reserve shares. No money is required in advance.

Respectfully yours,

SUN OIL REFINING COMPANY.

PIERRE has the finest beds of Brick Clay, Sand and Gravel to be found in Dakota
 Also, Granite Rock for building purposes in abundance

PIERRE, THE CENTRE OF SOUTH DAKOTA.

The country surrounding Pierre is as fine as any in the West. The soil and climate are especially adapted for corn and mixed agriculture. Stock raising is a success. With equal improvements, our farms will be as valuable as those of Iowa or Minnesota.

is situated on the Missouri River—has the finest system of Waterworks in the Northwest—the most successful Street Car Line in Dakota, is the seat of the Presbyterian College of South Dakota, and of the U. S. Indian Industrial School.
