"Behind every successful mouse, there's a beautiful lady mouse. Minnie Mouse, for example, is the charming little squeaker who has been Mickey's female companion for decades... it (is) easy to see why Mickey should be so captivated by her pixie-like personality — the innocent, child-like face and the graceful, flowing lines of an adult beauty".

The Walt Disney Company, 1986

"She is "tender, brave and strong... her coquetterie is of the delightful type which never conceals it's object".

— Novelist E.M. Forster
