## BICENTENARY OF THE BIRTH OF SIR CHARLES BRISBANE

Sir Charles Brisbane entered the Naval Service at ten years of age and served in the Mediterranean waters, fighting off the French fleet. In 1807, whilst commanding the 'Arethusa', he was engaged in

blowing up Curaçoa harbour. After the capitulation, he assumed the functions of Governor of the Island for a short period. He then resumed command of the 'Arethusa' until the autumn of 1808

when he was appointed to the 'Blake' and shortly afterwards to the Government of St. Vincent. In January 1815, he was nominated a KCB and in August 1819 was made Rear-Admiral.

## SIR ROWLAND HILL CENTENARY 1879-1979

"A bit of paper covered at the back with a glutinous wash, just large enough to bear the stamps showing that the tax had been paid."

This was how Rowland Hill described his invention of the first adhesive postage stamps, the "Penny Black" and "Twopence Blue" introduced by the British Post Office on 6 May 1840. Postage stamps were gradually introduced by other countries and on 8 May 1861 St Vincent issued a "Penny Red" and "Sixpence Green". The new definitives of St Vincent reflect the postal heritage of the island and depict markings of various Island Post Offices.

Stamp users and collectors of the world salute Sir Rowland Hill on his centenary and in May 1980 meet in London to celebrate 140 years of postage stamps.
