The Extraordinary Collections of George McNamara

Introduction. George McNamara was a philatelist in the deepest and truest sense of the term, for he loved stamps and he loved to study them. His collections, formed over many decades, are most of all study collections, and incorporate all his

years of research into varieties, essays, proofs, just about anything beyond the basic listings.

George began his professional career in New York City, and worked with John Fox and also with Burt Taub at Stampazine. He eventually came to Dallas and worked for the stamp division of Heritage Auctions ("Steve Ivy Philatelic Auctions"), which was then managed by Charles Shreve. When Charles started his own business as "Shreve's Auction Galleries" with his then-wife Tracy (yes, that Tracy, who is now our co-director), George followed. When Shreve's was sold to Spink, George retired.

The collections that follow are usually mounted on Elbe blank pages, typically 40 to 60 pages per volume, and with George's many annotations (usually in pencil). There is enormous real value in these collections in all the things that are not Scott listed - the extensive essays and proofs, the unlisted perf varieties, the usages on cover, the postal stationery and more. We have deliberately estimated these lots at very low prices as the estate wishes to sell. We believe however that if these collections were valued as typical Western European collections, they would be worth easily two to three times our estimates, especially if you consider all the marvelous unlisted material in each.

These collections are some of the finest ever formed for these East European countries and can easily form the basis for several first class exhibition collections. They can also form enormous retail stocks of each area. And please note that in most instances where an item could be forged, George went to great pains to get it signed or certified by an appropriate expert.

Enjoy the images. Perhaps even learn from them and absorb some of George's philatelic wisdom....

63 ★/○/✉ **Albania, 1913-1984, the world-class collection in 9 volumes, formed by the late George McNamara.** One of the finest collections of this area ever formed, meticulously collected by an experienced professional philatelist over many years. This could easily form the basis for a wonderful exhibition collection.

Volume 1 contains issues of 1913 through 1917. The Turkish overprinted issues (Scott 1 through 19) are nearly all signed and contain some great rarities, including #2a (used on piece, catalog value \$1,600), 11 (used, catalog value \$4,750), 15 (on piece, catalog value \$1,750), 18 (two, each on piece, catalog value \$5,000 total), and 19 (five used, catalog value \$6,250 total). Total Scott catalog value for this group comes to \$32,425. There are also some ministerial reprints (listed in Michel) and some postal stationery. A detailed inventory of these issues begins the PDF. And there are high resolution PDFs of each of the 7 pages of these issues - see below.

The handstamped issues are extensive and come to approximately \$1000 catalog value. Skanderbeg issues add at least another \$1000 catalog value including some nice usages on cover. And there are a couple hundred (at least) of the Korytsa issues, including some on cover; catalog value for this group comes to over \$2000. Total catalog value for this volume is approximately \$37,000.

Volume 2 contains issues of 1918 to 1925, including covers and postal stationery, and catalogs well over \$2000.
